Attn. Richard Hjerpe, Supervisory Patent Examiner Group 2774
From: David Muresan. Address: 18204 30th Ave NE Seattle WA 98155 Ph (206) 367-0818
Ref. to: Your Letter 2-5-98, serial No: 08/653,425, filing date 05/24/96
Today: is 2-17-1998

As a result of your final rejection made in your letter 12-22-97 and the negative letter from 2-5-98 refusing to withdraw the final, I apply for an appeal for the reasons presented bellow, for our invention application **"Computer Mouse"**.

As additional material I wish you to review, are:

1. The **Original specification** filled in 1-28-96
2. The **discussions of the references applied against our claim in the invention "Computer Mouse"**, sent 5-25-97. (before the final rejection 12-22-97).
3. The **Detailed Disagreement with your final decision opposing the patent No: 5,371,516 (Toyoda) to our computer mouse.** and
4. The **New substitute specification (1-06-98) and Marked-up copy of the invention "Computer Mouse"**. This is better organized and the claim contains the word "comprising". No new matter (not presented in the materials sent before the final) are introduced in this specification or in the claim.

I am willing to collaborate with you to explain all the details of our invention. or to give to our claim a better form as it hapened with our main invention in computer electronics for which in Jan 98 we've got a patent.
